

SICO® Mobile Sleeper

The most comfortable mobile sleep experience on the market.

Features, Advantages & Benefits

Adjustable Straps with Fasteners - Straps are strategically positioned to hold pillow, bedding and mattress in place during transport and storage. The strap fastens safely out of sight under the bed when the bed is readied for use. The bedding is held to the frame by a separate figure-eight strap, which allows bedding to be tucked in on all sides of the mattress.

Fire-Retardant Ticking - Used on both the foundation and the mattress. Sleep soundly knowing SICO® meets the stringent California fire-retardant standards.

Casters - Four 3" (8cm) swivel casters allow bed to be easily rolled to wherever it is needed.

Durable Laminate Headboard - Keeps pillows from falling off bed. Edge banded for added protection in transport.

Leg / Handle Frame - Assists in lowering the bed into the use position.

Foundation - The foundation is wrapped with an attractive burgundy vinyl on its edges and back that matches the textured hybrid powder coat finish on the frame. The vinyl wrap on the foundation makes it very easy to keep clean and adds to the life of the Sleeper.

Pivot Point - The end legs and pivot points make them easy to lower for use or raise for transport.

Durable Frame - An extra tough, scratch resistant powder coat finish applied to 14 gauge frame.

No Moving Parts - No hinges to catch sheets or pinch fingers. You don't have to worry about maintenance.

Vinyl Storage Bed Cover - Optional protective covering from dust and damage.

Easy Transport - Housekeepers around the world find SICO's® Mobile Sleepers easy to transport, as the light weight design allows them to roll quietly through hallways on casters. Bed conveniently fits through standard doorways while in the vertical position.

Bed Cover Accessory – Optional.

Warranty – The SICO® Mobile Sleeper comes with a **5-Year Warranty** on the Frame, Headboard & Casters.
